

***Want fast, convenient, affordable 100% financing?***

***Need to finance your selected new or used equipment? Or computers? Or software? You can finance virtually anything your business needs.***

## ***Amerisource Funding makes it easy.***

**We can finance all types of equipment, hardware, software, installation, training and any associated soft costs. Virtually anything you need to help your business grow can be financed with Amerisource Funding.**

We've created a 100% financing, lease-to-purchase program designed to make the financing you need fast, simple and extremely convenient. Simply "bundle" all of your costs into one affordable fixed monthly payment.

### **Streamlined to cut down the paperwork.**

And speed your approval. We know you want your supplier paid fast. Amerisource Funding makes it happen. No need to fill out lengthy forms. Your credit application is a single page. We can e-mail you the documents for signature. It's convenient. In fact, there's no need to leave your office! You can be up and running in no time at all.

### **All the advantages of leasing with the level of service you'd expect.**

It can make sense to lease. 100% financing can free up your cash for other purposes, like the future expansion of your business. It can also make sense to pay for your acquisition monthly as it performs a service for your business.

### **Interested in applying? Want to find out more?**

**Contact the Leasing Division of Amerisource Funding at (800) US MONEY (ext. 410 if after hours) or e-mail: [Leasing@amerisourcefunding.com](mailto:Leasing@amerisourcefunding.com)**

Let us show you just how simple financing your selected purchase can be.

## ***WHY SELECT 100% FINANCING? THERE ARE PLENTY OF BENEFITS***

100% financing can play an essential role in virtually every successful business strategy. We can structure a lease-to-purchase plan or a traditional loan for you – each offer the same 100% financing terms.

### **Take a look at some of the key advantages:**

**Improved cash flow management.** Because of the sizable cash outlay involved in equipment and software acquisitions, many businesses lease to conserve working capital. Money may be better spent on appreciating assets and investing capital back into your business. And since monthly lease payments remain fixed for the entire term of a lease you can continue to accurately budget into the future. It makes sense to pay for your new acquisition monthly, as it performs a service for your business – just like you would pay a new employee.

**100% financing.** Traditional methods of financing usually do not include soft cost items such as installation, maintenance, data conversion, training, consulting fees & freight. With leasing, you can bundle all soft costs into the terms of the lease.

**Easier than bank loans.** Leasing programs and procedures are specially designed to take the red tape out of financing - whenever possible avoiding typical "bank requirements." Some banks may require compensating balances or other restrictive policies such as sizable down payments, client list reviews, cash flow projections and the like.

**Tax benefits.** Many businesses traditionally deduct their monthly lease payment as an operating expense thus reducing the net cost of the lease. (Consult your tax advisor for details.)

**Save the big down payment.** For the majority of leases, only a nominal documentation fee and the first and last payment are required.
